## Patient Portal FAQ

### What is the Patient Portal?

Our patient portal is a safe, secure website that allows patients to access certain parts of their medical records, appointment reminders, review demographic information, prescriptions and pharmacy information for accuracy.

### What are the benefits to our patients?

You have quick, easy access to important parts of your medical chart. You can see, print and download this information at your convenience, without having to call the office.

### Is the Patient Portal safe?

Absolutely. We've invested in a secure server and a secure web domain (denoted by the "s" in the https:// portion of our Patient Portal's URL) to ensure the safety and confidentiality of your medical records.

### How do I sign up?

Just make sure we have your email address on file. After each visit, or any time a new document is added to your chart, you will receive an email notification. Just click the link that will take you to our Portal Homepage and you can sign in there.

### I'm a first time user, how do I log on?

On the homepage, on the right hand side about midway down, the words "New User – Sign Up Now" appear in blue. Click on it and it that will take you through a 3-Step process to create your user name and password. Your CUC Chart ID User name can be unique or you can use your email address. Be sure your password has an upper case, number and special character (we recommend using an exclamation point).

### Can I use the portal to schedule appointments?

It is not possible at this time to schedule appointments via the portal. Please call us during normal business hours at (847)382-5080 to schedule.

### What if I forget my password?

On the homepage below the login box, there appears a "Forgot Password" link . Once you verify your account information, a new password will be sent to you via email.

### What if I can't view my documents?

If you cannot open documents in the Visit Notes, Labs, or Reminders section of you chart, it is most likely because you do not have Adobe Reader installed. You can download this program for free from the internet.

### Is the portal meant to replace an office visit?

Not at all. The portal is a communication tool between you and our office.
